**News & Notes:**

Our sympathy to the families of Brian Combs, a houseparent at Foster's Home, who passed away from Covid.

*From Casey:*

*We have a long way to go yet - about 11 months or so, of hard treatments, but then, we should start being in the clear. And I mean clear.*

*They took out nine lymph nodes and cancer was in all nine. My cancer is a slow-growing cancer, apparently. Which, that doesn't respond to chemo as quickly as fast-growing cancers. So, that's why there's still some left, but it's only there in the lymph node area, nowhere else in the body.*

*I will start taking infusions of Kadcyyla tomorrow - every three weeks. That is an antibody treatment with a bit of chemo in it. It will take chemo straight to the cancer and release it right there. I'll have to take 14*

*treatments of that. Every six months, they will add Zometa to the infusion.*

*I started taking Anastrozole - that's a hormone-blocking pill. My cancer is fed by hormones. So, if we add to the hot flashes I already have, I better have good home insurance - I will absolutely ignite!*

*I will start radiation in about a week or so. That will be going on at the same time the other treatment is going.*

*We will do CT scans every six months until this stuff is GONE.*

*Thank you all so much for the prayers, letters, gifts, and kind words. I love you all so much.*

*Casey Click*

*Get your recipes to Cathy Bachhofer ASAP. Hand them to her personally, put them in the box in the foyer or email them to [Tolar20recipes@yahoo.com](mailto:Tolar20recipes@yahoo.com). We also want to recognize and remember treasured members who are no longer with us- so submit their recipes with their names as well! \*\*PLEASE double check your recipe for accurate measurements, clear instructions, and clear writing. \*\**

*We will resume Wednesday night Bible class at the church house this Wednesday, November 4<sup>th</sup> at 7 pm. See one of the elders for more information.*
